## Offset Printing

Offset Printing is the most commonly used printing process in the world, also called Offset Lithography. Offset Printing is designed for mass production and is used by most businesses and organizations for printing high volumes in need of consistent quality and low costs.

Offset printing is the ideal choice for runs of 500 or more. Cost effective for larger quantities (lower marginal costs), Highest possible quality. Variety of paper and ink types can be used.

More types of prints included with offset are Pamphlet, Catalogue, Tri-fold, Folders, Booklets, Brochure, Stickers, Packaging Box, Posters, Calendars, Diaries etc..
